GUIDELINES

FOR

RECOGNITION OF

“CENTRE OF EXCELLENCE”

Government of India
Ministry of Skill Development & Entrepreneurship
Shram Shakti Bahwan
New Delhi-110001
(w.e.f. 09.08.2019)
Initiative for Setting up of Centre of Excellence in Skilling Ecosystem

1. Introduction

Skills and knowledge are the driving forces of economic growth and social development for any country. Countries with higher levels and better standards of skills adjust more effectively to the challenges and opportunities in domestic and international job markets.

Center of Excellence (CoE) is a body that provides leadership, best practices, research, support, training of trainers and skill training for a specific sector/s. The literal meaning of a Center of Excellence is – ‘A place where the highest standards are maintained.’

Centre of Excellence in skilling ecosystem is envisioned to be one stop resource centre, established/working in partnership with industry to raise training standards, boost productivity, address emerging skill gaps and align training & research with industry needs.

With the intent to overcome skill demand-supply mismatch, to have continuous supply of skilled workforce and disseminate best practices, “Centre of Excellence” is proposed to be recognized by Ministry of Skill Development & Entrepreneurship (MSDE). The initiative would encourage such bodies already engaged in research and development activities in the skilling domain and allied fields to work on key emerging areas where there is knowledge deficit or skill gap, so as to set up Centres of Excellence.

2. Background

As per the National Policy for Skill Development & Entrepreneurship, 2015- “National Skills Universities and Institutes will be promoted in partnership with States as centres of excellence for skill development and training of trainers, either as de-novo institutions or as a part of existing university landscape. It is desired that these institutions become aspirational for candidates as other premier institutes around the country. These institutions, apart from skilling candidates through affiliates and training the trainers, will also conduct extensive research to enhance the quality and delivery of skill training by keeping abreast with latest developments in the skills space”.

Centres of Excellence will be set up to ensure continuous supply of quality trainers in each sector. Special training programmes would be developed for training of trainers meant for overseas employment, including language training in collaboration with the concerned country. This could include exchange programmes, industry visits and simulated training. ICT enabled training and certification program for the trainers to train them within comforts of their homes, wherever feasible would also be promoted. Moreover, appropriate training in the latest technological developments for upgrading the technical skill of trainers, as per the requirement of the present scenario by the industry will also be undertaken.

Largely, three models are existing in the skilling ecosystem for operating- “Centre of Excellence”, placed at Annexure-I
3. **Functions of Centers of Excellence**

The core functions of CoE should focus on areas like:

- To conduct high Quality Training in specific sectors with special focus on emerging technologies.
- To develop association between academia and industry for the benefit of the skill development sector.
- To conduct Research and Development in related fields and disseminate the results of the R&D and other activities through filling of patents and transforming them into sustainable business proposals/solutions.
- To upgrade the Centre’s technical capacity, information architecture.
- To support creative and innovative proposals in terms of functions and facilities.
- To establish a sound new institutional base for executing the programmes/projects by strengthening the existing infrastructure.
- To foster relations across countries, between governments, workers, chambers of commerce, academia, industry and other Industrial associations in establishing collaborations of various projects of Institute/Organizations.
- To create network of nearby institutes for capacity building and mentoring support.
- To preferably establish an Entrepreneurship cell.

4. **Eligibility Conditions for getting recognition of CoE by MSDE:**

Recognition for CoE shall be granted/awarded to a body (Govt or Pvt) University/institute/organization set up meeting the eligibility requirements as mentioned below and as per the guidelines issued by MSDE from time to time.

4.1 **Essential**

a) The CoE should be 5 years old or more with a proven track record of skill training and academic excellence or cutting edge research in the Skill Development sector, as indicated by publications, research projects, consultancy assignments and should have a close industry connect.

b) It should have adequate infrastructure in terms of land & building including, research scholars, modern equipment, sufficient funds to purchase plant/machinery.

c) The institute should have sufficient/competent manpower/research staff. CoE should have competent core staff of the field and identified skilling areas in which CoE is operating.
d) CoE should have association with International bodies/ universities/ institutes in providing skill training and research support including developing NOS/QPs as per the industry standards and international requirements will be an added advantage.

e) It preferably should have basic level experience in running training of trainers, partnership programs with NSDC, DGT and other Ministries.

### 4.2 Desirable

• Details of the networking / mentoring support given to nearby institutes. |
| 9 | IT support/ Technology intervention | • Use of ICT in training of students and monitoring activities. |
| 10 | Availability of updated learning resources | • Review mechanism for learning resources in place |
|   | (Regular reviews of learning resources to ensure they remain current and relevant to industry practice, including identifying where innovative resources can be incorporated into learning programmes ) |   |
| 11 | Inclusive | • Availability of Infrastructure and learning technology for differently abled. |
5. Recognition:

The Ministry of Skill Development & Entrepreneurship (MSDE) shall constitute a Standing Committee chaired by Secretary/Additional Secretary to Government of India, for recognition for Centres of Excellence. This will be a central committee, which will look into frame and amend the policy, procedures, terms & conditions and other aspects of this initiative from time to time and when needed. The committee shall be responsible for evaluating proposals and laying down the parameters and norms for assessing the CoE as required. The power to approve/recognize/reject/cancel/withdrawal of proposal shall rest upon the Standing Committee. The recognition may be initially granted for a period of five years/or once a centre recognized as “Centre of Excellence” is liable to be derecognized at any time as deemed by the Standing committee.

6. Proposal Submission:

(a) Prospective Applicants may send the proposals to the nodal officer by email/post on the address specified below:

Smt. Mamta Meena,
Deputy Director,
Economic & Policy Wing,
Ministry of Skill Development & Entrepreneurship
Room No. 212, 2nd Floor, PTI Building,
4 Sansad Marg, New Delhi-110001
Phone: 011-23465912
Email: mamta.meena@nic.in

(b) Application for recognition of Centre of Excellence shall be made as per the prescribed proforma at Annexure-II and the copy of documents & certificates to be submitted are as per Annexure-III.
Existing Models of Centre of Excellence

Three Operational Models for Centers of Excellence

Model 1: Centers within a training institution

The most common is establishing a center of excellence within an institution, such as a university (especially existing skill universities) or training provider. Existing facilities may be used, or new ones may be constructed. The institution once declared as a CoE can be elevated from "good" to "great" by acquiring expert/master trainers, upgrading existing facilities, acquiring tools, equipment and facilities as per the market requirement, introducing domain-specific blended learning. Typically, this center will become a model of best practice in the designated field. This approach enables the new center to take advantage of the reputation and resources of an existing institution with an established reputation in the skill domain. The CoE could partner with various industries, government, sector skill councils, and industry bodies to upscale its competency and the existing Skill Universities may adopt this model if they meet the criteria for recognition.

One of the examples in this case is Centre of Public Policy (CoE) at IIMB- is an independent public interest-oriented policy think tank engaged in pioneering research, teaching, training and capacity-building. The Centre established in 2000 through a partnership agreement between the Department of Personnel and Training (DoPT), Government of India (GoI), United Nations Development Programme and IIMB aspires to lead policy-thinking and praxis in India, promoting equitable, inclusive and sustainable solutions to the concerns of citizens and public governance.

Model 2: Stand-alone independent centers

In some situations, a center of excellence is set up from scratch on a brownfield or greenfield site not connected to an existing institution. This requires intensive capital and human resources investment, as all facilities, recruitment, operational structures, and processes need to be established. This may take several years, so a positive reputation needs to be quickly established. Involving industry in co-financing and sponsoring the center can be highly effective. These centers may be linked to wider governance or organizational structures.

For example, a stand-alone center may be established by an industry skills council that has identified training needs that cannot be addressed by existing providers. There are several advantages to linking a
new center to an industry skills council or similar industry body, including the ability to use established governance structures, and immediate links with industry and government policy priorities. Example in this case is the: Tata Institute of Social Sciences and UNFPA have launched a Centre of Excellence on Youth and Adolescents. It focuses on research and policy advocacy for advancing young people’s agenda.

**Model 3: Networks of excellence**

These are organizational structures or agencies that bring existing training providers together in a network. This can be an appropriate option when good-quality training providers operate in isolation from each other or do not collaborate with industry.

Establishing a network does not involve the physical construction of new training facilities. Capacity-building efforts are focused on existing providers. These may involve upgrading equipment, strengthening human resources, and the granting of a recognized "kitemark" or certification of quality.

Networks of excellence can be an effective means of ensuring that provision in specific areas is aligned with government policy priorities. They are also particularly useful in situations wherein the skills needs of a particular sector or subsector are diverse.

**Examples:** CII Institute of Logistics, Chennai, provides specialized Services to build Leadership, Strategy for Sustainability, Identify and Adapt Clean Technologies and Management, Enhance Energy efficiency and become Environment friendly, adopt world class practices in Logistics and Manufacturing Management

****
Annexure-II

**Proforma for Recognition of Centre of Excellence:**

1. Name of the Organisation:

2. Address with E-mail and Phone No.:

3. Registration No. and date:

4. Year-wise financial status of the Organisation of last 5 years; income and expenditure:

5. Whether the Organisation has its own building if yes, give details of infrastructure available along with equipment, vehicle etc of the place which is sought to be recognized as CoE:

6. Details/ Profile of Personnel employed in the CoE:

7. The details of objectives of the established CoE, with elaborate justification:

8. Whether any grant has been received from Central/ State Govt./Funding Agencies for projects being undertaken by CoE, if so, the details thereof:

9. Track record of meritorious accomplishments /awards etc. during the last five years by Centre of Excellence:

10. Performance Desirables of CoE for which recognition is sought:

1. **CHECKLIST OF DOCUMENTS TO BE ATTACHED WITH THE APPLICATION**

   i. Application as per Annexure – II

   ii. Two copies of Detailed Project Report (DPR) of the Proposal

   iii. Attested copies of the Registration Certificate, Memorandum of Association and By-laws of the Organization in case of Non-Governmental Organisation / Institute.

   iv. Attested copy of the Audited Statement of Account for the last 3 years.

   v. A note of past activities especially those related to Skill Development Sector.

   vi. The list of publications by CoE, if any.

   vii. Documents supporting the previous track record of working in the field of proposed excellence.

2. **CERTIFICATE TO BE SUBMITTED WITH THE APPLICATION**

   CERTIFIED THAT:

   1. We shall abide by all the Terms and Conditions of the CoE guidelines.

   2. We shall furnish such periodical / special reports as may be required by MSDE and its attached offices.

   3. MSDE may at their discretion, themselves or through their authorized representative evaluate the work undertaken by CoE and its progress over a period of time.

   4. The undersigned shall be personally responsible for the credibility and authenticity of the information provided and documents attached with the proposal and legally liable for any default in this regard.

   5. Separate records for skill development projects will be maintained.

   Name and signature of the General Secretary/President/Chief Executive/Proprietor of the Organisation with Seal of Office.
